

NOW DISTRIBUTED BY DJO®

Kelvi™ PRO^e

The Kelvi™ PRO^e is the smaller, portable unit in the Kelvi Pro series. With a simple, interactive display, and expanded features, the evolution of Kelvi technology is bringing more efficient Cooling, Heating, and Contrast therapy to home, clinic, and sports medicine facilities.

Features:

- All digital Cooling (39-59F) and Heating (95-108F) therapy
- Rapid contrast therapy in a convenient, portable, and hygienic modality
- Kelvi™ wraps contain digital thermometers to measure skin temperature and create a comfortable and safe treatment
- Biofeedback loop ensures continuous precise treatment
- No changing ice and/or water; No solutions; No mess
- Wraps do not mold from condensation

Why Kelvi™?

- **Safe:** Digital thermometers embedded in the KelviTEC™ tiles, constantly measure the patient's skin temperature
- **Precise:** Select your exact temperature and your exact time based on the patient's individual needs
- **Smart:** WiFi and Bluetooth connectivity expand your treatment options in this advanced system

Benefits:

- Longer treatment times and increased depth of penetration based on continuous feedback loop and skin temperature measurement
- Rapid, smooth transition during contrast therapy is more comfortable for the patient
- The Kelvi Pro™ series is software based allowing for easy feature updates
- The Kelvi Clinician and Kelvi Patient Apps allow for treatment customization and protocol sharing
