

**Colfax Completes \$3.0 Billion Bank Financing to Support DJO Acquisition, Schedules 2019 Outlook Conference Call**

**Annapolis Junction, MD**, December 17, 2018 – Colfax Corporation (“Colfax”) (NYSE: CFX), a leading diversified technology company, announced that today it entered into a new \$3.0 billion credit agreement with a group of 23 banks led by JPMorgan Chase Bank and Credit Suisse Funding LLC that completed the bank financing for the Company’s recently-announced acquisition of DJO Global, Inc. Funding from the new credit agreement will be made available to the Company on the date of consummation of the acquisition, expected to be in the first quarter of 2019.

“We are pleased to complete this important element of the DJO acquisition financing with attractive terms,” said Christopher M. Hix, Colfax Senior Vice President and Chief Financial Officer. “The Company is well-supported by a global bank group aligned with our portfolio transformation strategy. The terms and structure of this financing are consistent with our near-term plans to delever and our longer-term objective to achieve investment grade credit ratings.”

The new credit agreement consists of a \$1.3 billion revolving credit facility, a \$1.225 billion Term A-1 loan which matures in five years, and a \$0.5 billion Term A-2 loan which matures in two years. The funds available from the new credit agreement will be used to refinance the Company’s existing credit agreement, and to fund a portion of the consideration and fees payable by the Company in connection with the acquisition of DJO. Following the closing of the DJO acquisition, credit extensions under the revolving credit facility will be used for working capital and general corporate purposes.

The new credit facility will bear interest, at the election of the Company, at rates determined by a base rate or Eurocurrency rate plus a margin that is based on the Company’s leverage levels and credit ratings and which is initially expected to be 0.75% for the base rate or 1.75% for the Eurocurrency rate. The new credit agreement also contains customary financial covenants requiring the Company to maintain a maximum total leverage ratio and a minimum interest coverage ratio.
